

MICROBEBIO®
NATURE PHENOMENON

GREEN FURY

BOTANICAL INSECT CONTROL FOR CROPS AND LIVESTOCK

MicrobeBio® Green Fury™ is a next-generation, all-natural insecticide powered by botanically derived active compounds. It delivers rapid knockdown and long-lasting suppression of a broad spectrum of crop and livestock pests while remaining safe for workers, beneficial insects, and the environment.

KEY BENEFITS

Fast Knockdown & Residual Control

– Quickly suppresses feeding and disrupts pest development, reducing crop and livestock damage.

Dual Action Formula

– Combines immediate contact impact with anti-feeding, growth regulation, and oviposition deterrence for extended protection.

Broad-Spectrum

Protection – Effective against hundreds of insect pests across multiple crop systems and livestock environments.

Safe for Organic Use

– Approved for certified organic farms, barns, dairies, and poultry houses.

Residue-Free & Biodegradable –

Naturally breaks down in sunlight; fruits and vegetables can be harvested the same day of application.

Versatile Application

– Can be applied on fruits, vegetables, cereals, grains, orchards, plantations, greenhouses, and animal housing facilities.

Eco-Friendly – Non-toxic to pollinators, fish, birds, and livestock when applied as directed.

PESTS CONTROLLED

MicrobeBio® Green Fury™ provides control over a wide range of soft-bodied, chewing, and sucking insect pests, as well as livestock nuisance pests.

Soft-Bodied & Sucking Pests

Aphids
Whiteflies
Thrips
Mealybugs
Jassids / leafhoppers
Scale insects

Chewing Insects

Caterpillars (*armyworms, bollworms, leafrollers*)
Fruit borers
Leaf miners
Grasshoppers
Beetles (*flea beetles, Colorado potato beetle, etc.*)

Sap Feeders & Disease Vectors

Stink bugs
Fruit flies (*Bactrocera spp.*)
Mites (*spider mites, eriophyid mites*)

Stored Grain & Livestock Pests

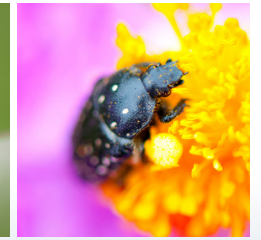

Weevils
Grain moths
Fleas
Lice
Stable flies
Ticks(*unopened*).

WHY CHOOSE MICROBEBIO® GREEN FURY™?

Because it provides powerful, broad-spectrum pest control without compromising the safety of crops, livestock, or ecosystems. With its unique plant-based actives, Green Fury™ is the sustainable choice for farmers and producers who demand effective, residue-free, and environmentally responsible pest management.

PRODUCT DESCRIPTION

MicrobeBio® Green Fury™ is a next-generation botanical insecticide formulated from pure plant-based active compounds. It delivers rapid knockdown and long-lasting suppression of insect pests across fruits, vegetables, grains, orchards, plantations, barns, dairies, and poultry houses. Biodegradable and eco-friendly, it is safe for pollinators, livestock, workers, and consumers.

ACTIVE COMPONENTS

- Plant-derived insect growth regulators
- Botanical anti-feeding agents
- Natural oviposition deterrents
- Inert carriers & stabilizers

(All ingredients are 100% plant-based and biodegradable)

TARGET PESTS CONTROLLED

Soft-Bodied & Sucking Pests:

aphids, whiteflies, thrips, mealybugs, leafhoppers, scale insects.

Chewing Insects:

caterpillars, armyworms, bollworms, leaf miners, fruit borers, beetles, grasshoppers.

Sap Feeders & Vectors:

stink bugs, fruit flies, spider mites, eriophyid mites.

Stored Grain & Livestock

Pests: weevils, moths, fleas, lice, stable flies, ticks

DIRECTIONS FOR USE

Dilution: Mix 2–3 mL per liter of water (*or as advised by crop specialist*).

Application: Spray evenly on foliage until runoff. For livestock facilities, apply as directed for fly/tick management.

Frequency: Every 7–10 days or at first sign of pest infestation.

Timing: Apply early morning or late afternoon.

Compatibility: Suitable for tank-mix with most organic nutrients and microbial inputs.

PRECAUTIONS

For agricultural use only.

- Shake well before use.
- Store between 10–30 °C in a cool, dry place away from sunlight.
- Do not ingest. Keep away from children.
- Use gloves and standard safety equipment during handling.
- Not for human or animal consumption.

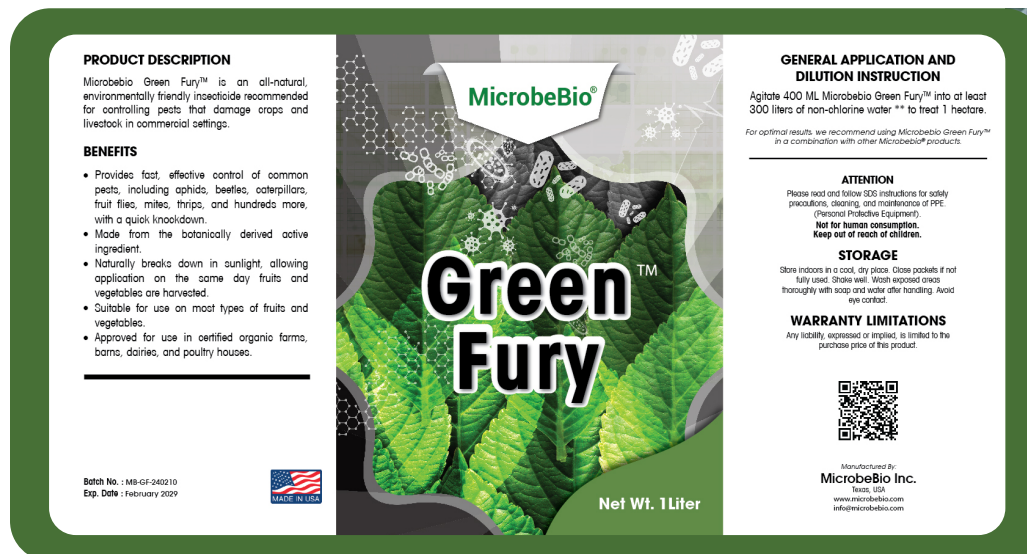

SHELF LIFE
24 MONTHS FROM DATE
OF MANUFACTURE
(UNOPENED).

CERTIFICATION
