MicrobeBio®

BIOSEA
ORGANIC

INTRODUCTION
MicrobeBio BioSea is a premium, fully water-soluble plant biostimulant and potassium fertilizer (0-0-17) designed to deliver explosive growth, superior plant health, and enhanced crop performance.
Packed with natural bioactive compounds, trace minerals, and growth-promoting substances, BioSea provides a highly available source of soluble potassium while acting as a powerful natural biostimulant. It supports plants at every stage — from seedling to harvest — by improving nutrient efficiency and strengthening overall resilience.

KEY BENEFITS

- Promotes vigorous growth & strong roots
- Enhances crop yield and quality
- Improves tolerance to drought, heat & stress
- Boosts nutrient uptake and efficiency
- Supports beneficial soil microbes

ANALYSIS

Premium Plant Biostimulant 0-0-17	
Soluble Potash (K ₂ O)	17.0%
Derived From: Natural Marine Plant Extract	

GENERAL APPLICATION

Directions for Use Fully water-soluble. Apply as foliar spray, soil drench, or through irrigation.

- Foliar: 1–2 g per liter of water
- Soil / Fertigation: 0.5–1 kg per hectare Apply every 10–14 days during active growth.

WARRANTY LIMITATIONS
This small certificate certifies attention limited solely for the intended reasons. If you do not fit the intended reason, do not stress, distribute, or crop this small. Please only the vendor MicrobeBio will accept and deliver this message from USA system. Small information is not guaranteed to be accurate or complete. All information may be misquoted, corrected, not, corrected, changed, inaccurate, or unclear when the vendor accepts its liability for any errors or omissions in this message resulting from direct transcription.

STORAGE
Store indoors in a cool, dry place. Once opened it will fully used. Store with. Wash repeated. Store. Recycle with care and with other recycling. Food products.

ATTENTION
Please read and follow all instructions for safe application, handling, and maintenance of PPE. (Personal Protective Equipment). Not for human consumption. Keep out of reach of children.

BATCH No.: MB-E-01302026
EXP. DATE: 1-01-15/2029

MicrobeBio BioSea is a premium, fully water-soluble plant biostimulant and potassium fertilizer (0-0-17) designed to deliver explosive growth, superior plant health, and enhanced crop performance.

Packed with natural bioactive compounds, trace minerals, and growth-promoting substances, BioSea provides a highly available source of soluble potassium while acting as a powerful natural biostimulant. It supports plants at every stage — from seedling to harvest — by improving nutrient efficiency and strengthening overall resilience.

KEY BENEFITS

BOOSTS PLANT VIGOR AND GROWTH — Promotes stronger shoots, robust root development, and faster vegetative growth for healthier, more productive plants.

INCREASES YIELD AND QUALITY — Enhances fruit set, flower production, size, color, flavor, and overall crop quality.

IMPROVES STRESS TOLERANCE — Helps plants better withstand drought, heat, cold, salinity, and other environmental stresses.

ENHANCES NUTRIENT UPTAKE — Acts as a natural chelator, making macro- and micronutrients more available and improving fertilizer efficiency.

SUPPORTS SOIL BIOLOGY — Feeds beneficial soil microbes, increases soil organic matter, and improves long-term soil structure and water retention.

EXCELLENT FOLIAR PERFORMANCE — Absorbs quickly through leaves and roots for rapid results with minimal waste.

MICROBEBIO BIOSEA IS IDEAL FOR VEGETABLES, FRUITS, ROW CROPS, TURFGRASS, FLOWERS, AND ORNAMENTALS. IT MIXES INSTANTLY IN WATER AND WORKS PERFECTLY AS A FOLIAR SPRAY, SOIL DRENCH, OR THROUGH DRIP IRRIGATION AND FERTIGATION SYSTEMS.

GIVE YOUR CROPS THE NATURAL EDGE WITH MICROBEBIO BIOSEA — FOR STRONGER PLANTS, HIGHER YIELDS, AND BETTER RESILIENCE SEASON AFTER SEASON.
