# UPSHOT

O R G A N I C

**INTRODUCTION**

MicrobeBio Upshot is an advanced, balanced organic fertilizer (7-7-7) that delivers complete plant nutrition in a highly efficient, water-soluble form. Formulated with premium plant-derived nutrients, amino acids, peptides, vitamins, and natural biostimulants, it provides a powerful 1:1:1 ratio of nitrogen, phosphorus, and potassium along with trace minerals and bioactive compounds.

This all-in-one formula supports every stage of plant development — from vigorous vegetative growth and strong root systems to abundant flowering, fruiting, and improved crop quality. Its unique composition allows for rapid absorption through both roots and foliage, delivering immediate results while building long-term soil health.

**ANALYSIS**

Premium Plant Biostimulant G-0-17	
Total Nitrogen (N)	7.0%
Available Phosphate (P <sub>2</sub> O <sub>5</sub> )	7.0%
Soluble Potash (K <sub>2</sub> O)	7.0%
<small>Contains Free-Form B-Vitamins, Amino Acids, Peptides, and Natural Marine Extracts</small>	

**GENERAL APPLICATION**

Directions for Use: Fully water-soluble. Suitable for foliar spray, soil application, drip irrigation, and fertigation.

- **Soil Application:** 10–20 kg per hectare
- **Foliar Spray:** 1–2 kg per 1000 liters of water
- **Fertigation:** 5–15 kg per hectare per application

Apply every 10–14 days during the growing season or as needed based on crop requirements and soil test results.

**KEY BENEFITS**

- Provides balanced N-P-K nutrition for all growth stages
- Promotes strong roots, vigorous growth, and high yields
- Enhances crop quality, size, color, and flavor
- Improves tolerance to drought, heat, and stress
- Feeds beneficial soil microbes and builds soil health
- Rapid uptake through roots and foliage

**WARRANTY LIMITATIONS**

This small organic fertilizer is intended solely for the intended purpose. If you do not see the intended results, do not reuse, distribute, or copy this email. Please only use the product information on this label and do not follow instructions from other sources. Small quantities may be purchased for the purpose of sampling. All information may be misread, distorted, not translated, altered, or otherwise used. The sender accepts no liability for any errors or omissions in this message resulting from email transmission.

**STORAGE**

Store indoors in a cool, dry place. Keep product in original container. Do not use if container is damaged. Wash hands after use and avoid contact with eyes and mouth.

**ATTENTION**

Please use and follow all instructions for safety, precautions, handling, and maintenance of PPE (Personal Protective Equipment).

**Not for human consumption. Keep out of reach of children.**

**BATCH No.:** MB-E-01000006  
**EXP. DATE:** 1-01-15/2029

Manufactured by:  
**MicrobeBio Inc.**  
15861 Diamond Ln, Building C,  
Huntington Beach, CA 92648

MicrobeBio Upshot is an advanced, balanced organic fertilizer (7-7-7) that delivers complete plant nutrition in a highly efficient, water-soluble form. Formulated with premium plant-derived nutrients, amino acids, peptides, vitamins, and natural biostimulants, it provides a powerful 1:1:1 ratio of nitrogen, phosphorus, and potassium along with trace minerals and bioactive compounds.

This all-in-one formula supports every stage of plant development — from vigorous vegetative growth and strong root systems to abundant flowering, fruiting, and improved crop quality. Its unique composition allows for rapid absorption through both roots and foliage, delivering immediate results while building long-term soil health.

## KEY BENEFITS

**Balanced Nutrition for All Growth Stages** — Supplies equal parts of nitrogen for lush green growth, phosphorus for strong roots and energy transfer, and potassium for disease resistance, fruit development, and overall plant hardiness.

**Rapid Uptake and High Efficiency** — Contains free amino acids and peptides that plants can absorb quickly, reducing nutrient loss and improving fertilizer use efficiency compared to traditional sources.

**Promotes Explosive Growth & Vigor** — Stimulates robust shoot and root development, leading to healthier, more resilient plants with faster establishment and higher productivity.

**Enhances Yield and Crop Quality** — Increases fruit set, size, color, flavor, and nutritional value while supporting uniform ripening and better harvest quality.

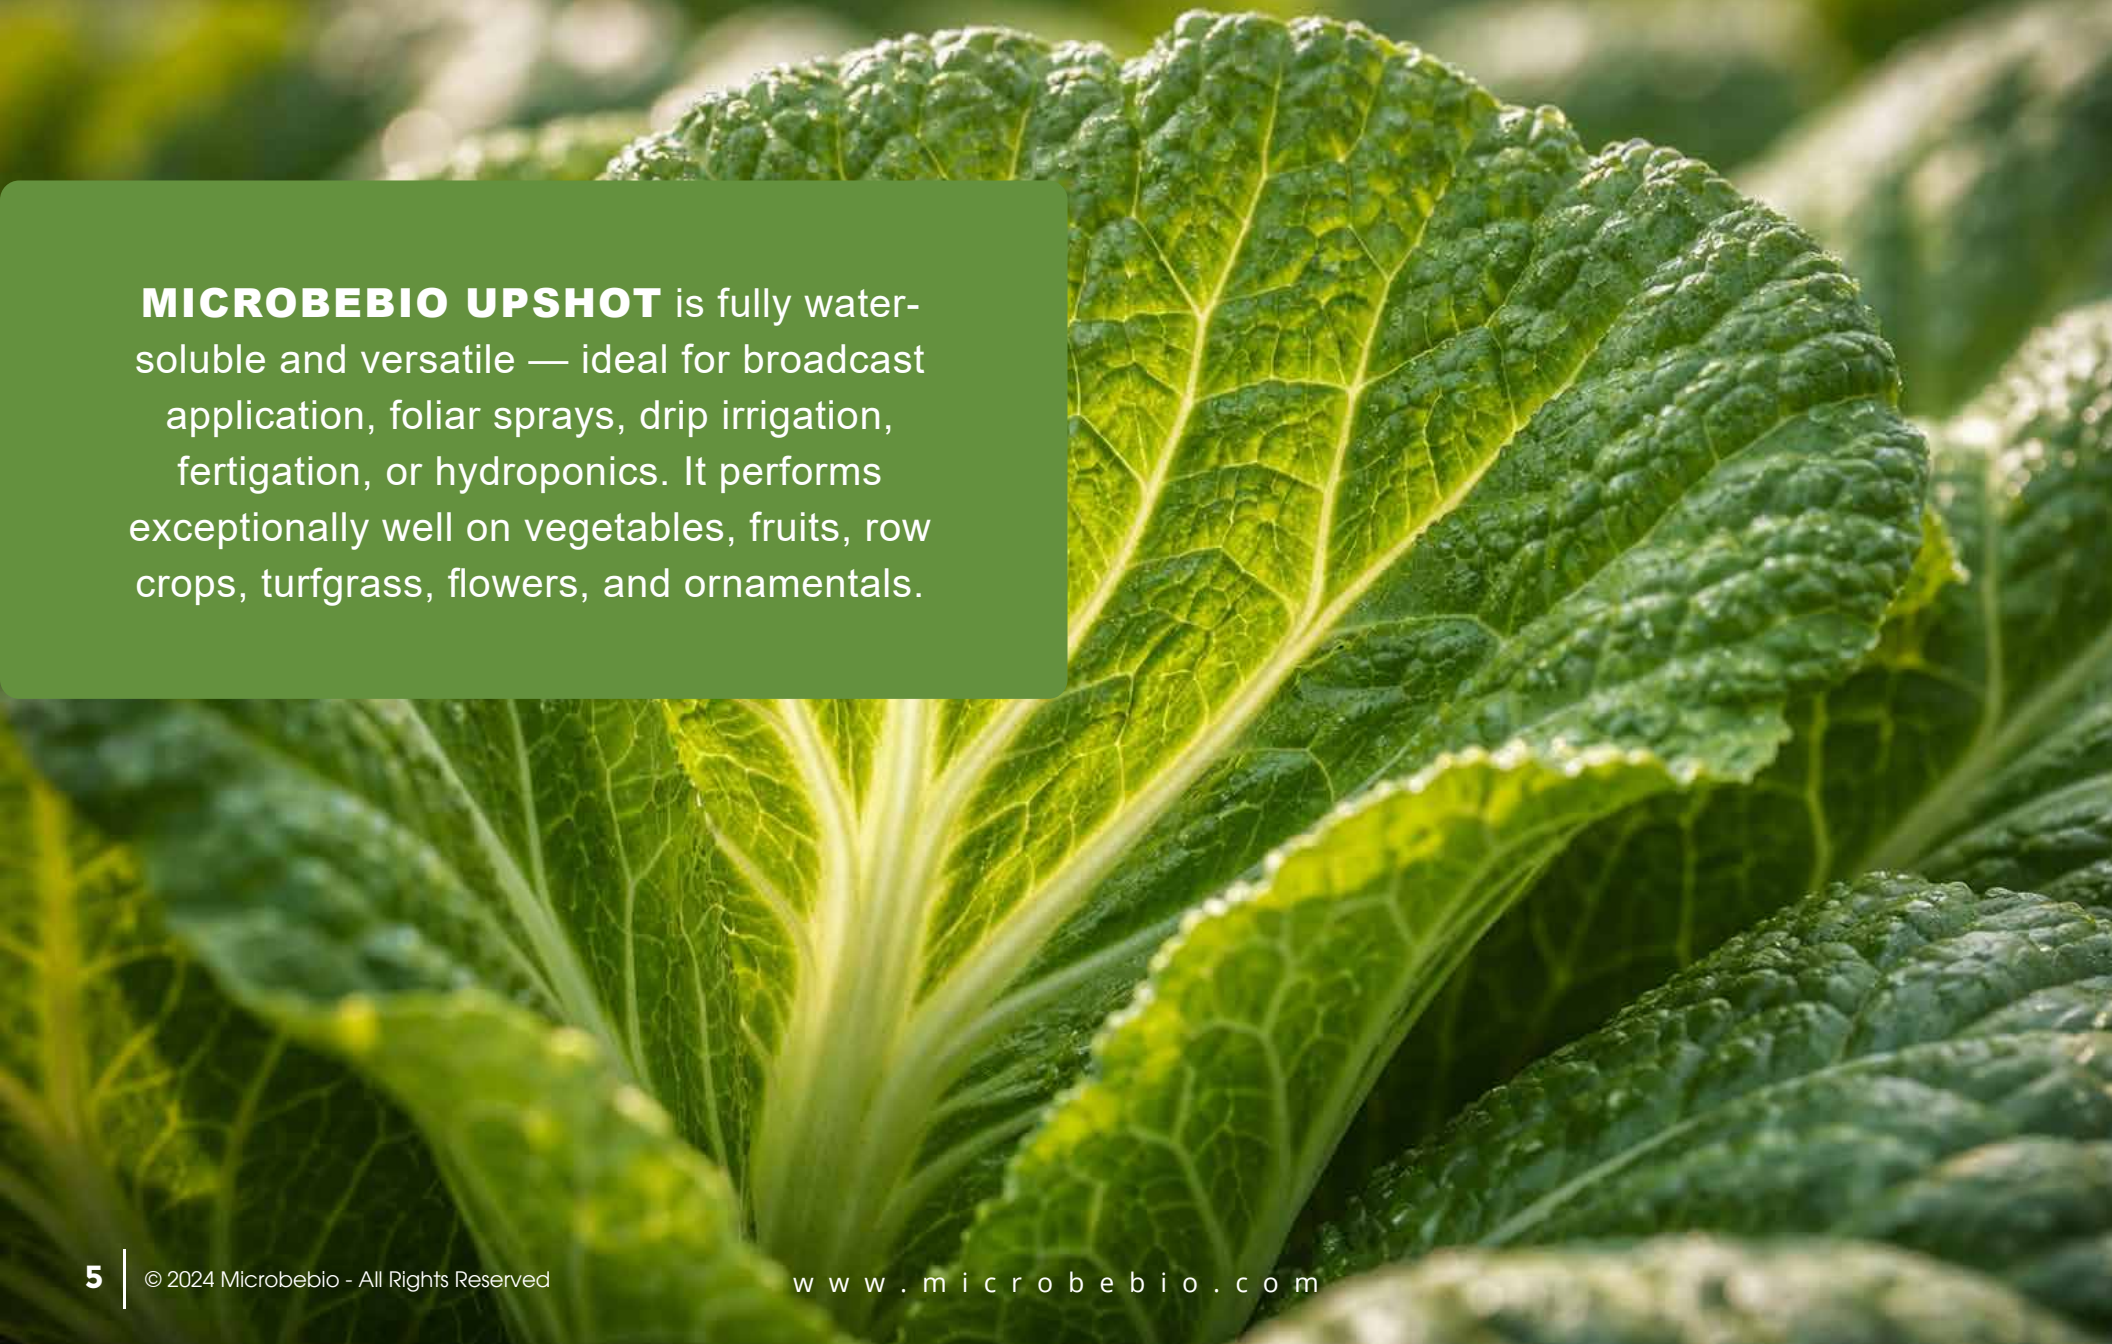

**Boosts Stress Tolerance** — Helps plants withstand environmental stresses such as drought, heat, cold, salinity, and transplant shock through improved physiological resilience.

**Feeds Beneficial Soil Microbes** — Acts as a powerful biostimulant that activates and nourishes the soil microbiome, enhancing nutrient cycling, organic matter content, and long-term soil fertility.

**Improves Nutrient Availability** — Naturally chelates and unlocks bound nutrients in the soil, promoting better overall uptake of macro- and micronutrients.

**Low Salt Index & Gentle on Plants** — Minimizes the risk of fertilizer burn while being safe for use in both conventional and organic production systems.

**MICROBEBIO UPSHOT** is fully water-soluble and versatile — ideal for broadcast application, foliar sprays, drip irrigation, fertigation, or hydroponics. It performs exceptionally well on vegetables, fruits, row crops, turfgrass, flowers, and ornamentals.
